In order to meet the general entry requirements for first cycle studies you must have successfully completed upper secondary education and documented skills in English language

Selection

The selection is based on final school grades or Swedish Scholastic Aptitude Test.

Examiner

Linnea Hedman

Course Aim

The student should, on completion of the course, with a scientific and ethical approach, be able to;

Describe and compare different developmental psychological theories

Describe the relationship between mental factors and reactions in relation to people's health/illness

Explain and reflect on the interplay between the people's thoughts, feelings, behaviour and the surrounding community

Explain and reflect on how people may react to difficult life situations and traumatic life changes

Contents

Developmental psychological theories; psychodynamic, cognitive, behavioural and humanistic theory

Health psychology

Social psychology

Mental crises

Children in vulnerable situations

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

Teaching and the student's learning take place through individual studies, lectures, case studies, group work and seminars. Case studies, group assignments and seminars are targeted to nursing and the future profession as a nurse. Lectures are given in selected sections of the course content. Attendance is compulsory at the introduction and seminars.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. The aims of the course are examined by seminar and individual written examination.

Grading criteria for Pass and Pass with distinction are stated in the study guide.

Remarks

The course is given for first-cycle studies within the nursing programme. Study supervision is provided in the course room in Canvas. Passing this course constitutes a specific entry requirement for placement courses and the thesis.

Overlap

The course A0018H is equal to HSO002

The course corresponds to HSO002
