Modelling and Presentation Technique 7.5 credits D0003A

Modellbyggnad och presentationsteknik

First cycle, D0003A

Education level	Grade scale	Subject	Subject group (SCB)
First cycle	G U 3 4 5	Industriell design	Other Subjects within Technology

Entry requirements

In order to meet the general entry requirements for first cycle studies you must have successfully completed upper secondary education and documented skills in English language

Selection

The selection is based on final school grades or Swedish Scholastic Aptitude Test.

Examiner

Josef Forslund

Course Aim

The student should be able to demonstrate skills in visualizing and presenting product concepts in the form of models in traditional design materials. The goal is that models and presentations will give a professional impression and that models should illustrate a high quality craftsmanship. The student should be able to demonstrate skills in oral communication of product ideas with the model as support, during realistic presentations

Contents

Introduction to model building and presentation techniques. Description of different types of models. Demonstration of design material for model building. Handcrafted development of models in various design materials.

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

The course is conducted as short lectures linked to exercises in model building in various design materials. Briefing of cardboard, foil material, industrial clay and urethanskum are linked to exercises and assignments in these materials. All tasks are performed and presented individually. Oral and written presentation of assignments means developing the ability to communicate with the support of models.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. The examination consists of the illustration of skills in model building and presentation techniques in the form of approved tasks and presentations. Special emphasis is placed on showing handicraft skills in the models' finish and professional communication of the models at the presentations. Mandatory attendance

Remarks

Students must register for the courses themselves, or contact ETKS educational administration eduetks@itu.se, not later than five days after the quarter commences. Failure to do so can result in the place being lost. This rule also applies to students with a guaranteed place

Overlap

The course D0003A is equal to ARD102

Literature. Valid from Spring 2014 Sp 4

Personal equipment and material according to material list, further more handouts will be provided concerning relevant instructions for the assignments.

Course offered by

Department of Business Administration, Technology and Social Sciences

Items/credits

Number	Type	Credits	Grade
0001	Approved laboratory work and approved presentations	7.5	G U 3 4 5

Study guidance

Study guidance for the course is to be found in our learning platform Canvas before the course starts. Students applying for single subject courses get more information in the Welcome letter. You will find the learning platform via My LTU.
