Business oriented projects II 7.5 credits D0012N

Verksamhetsförlagda projekt II

First cycle, D0012N

Education level	Grade scale	Subject	Subject group (SCB)
First cycle	U G#	Systemvetenskap	Informatics/Computer and Systems Sciences

Entry requirements

In order to meet the general entry requirements for first cycle studies you must have successfully completed upper secondary education and documented skills in English language and Basic knowledge in the area of system science corresponding the second year from a bachelor degree.

Selection

The selection is based on 1-165 credits.

Course Aim

After the course the student should be able to:

- find a project.
- apply knowledge in analysis and design
- plan and carry through a project in the area of system science in any type of organisation.
- work together with users and other actors in an information systems development project.

Contents

The course is for those students that are studying system science and want to apply their knowledge on projects in a concrete project to get an insight in the work of a system scientist.

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

The students are responsible to get a project and a supervisor in an organisation. The students make a project plan in cooperation with the supervisor. The students write a detailed diary of the work and hours spend in the project and following-up and/or revising the project plan. The diary should be submitted to the teacher every week.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided.

- A description of the project and the tasks.
- A time report approved by the supervisor.
- A detailed diary.
- An analysis of what you have learned and references to relevant theory.
- A presentation of the analysis and the of the information system.
- A short description of the project to be published on the website of The Department of System Science.

Unauthorized aids during exams and assessments

If a student, by using unauthorized aids, tries to mislead during an exam or when a study performance is to be assessed, disciplinary measures may be taken. The term “unauthorized aids” refers to aids that the teacher has not previously specified as permissible aids and that may assist in solving the examination task. This means that all aids not specified as permissible are prohibited. The Swedish version has interpretative precedence in the event of a conflict.

Remarks

The course can start whenever the student wants but it has to be completed within 4 month.

Overlap

The course D0012N is equal to IED420

Course offered by

Department of Computer Science, Electrical and Space Engineering

Modules

Code	Description	Grade scale	Cr	Status	From period	Title
0001	Project work	U G#	4.5	Mandatory	A07	
0002	Documentation and presentation	U G#	3	Mandatory	A07	

Study guidance

Study guidance for the course is to be found in our learning platform Canvas before the course starts. Students applying for single subject courses get more information in the Welcome letter. You will find the learning platform via My LTU.
