# **Computer and network security 7.5 credits D0029E**

**Dator- och nätverkssäkerhet**

**Course syllabus admitted: Autumn 2023 Sp 1 - Present**

**DECISION DATE  
2021-02-17**

# Computer and network security 7.5 credits D0029E

## Dator- och nätverkssäkerhet

### First cycle, D0029E

Education level	Grade scale	Subject	Subject group (SCB)
First cycle	G U 3 4 5	Datateknik	Computer Technology

### Main field of study

Computer Science and Engineering

## Entry requirements

In order to meet the general entry requirements for first cycle studies you must have successfully completed upper secondary education and documented skills in English language and courses of at least 60 credits at first cycle including the following knowledge/courses: Object oriented programming (D0010E Object-oriented Programming and Design), Basic knowledge in mathematics (M0049M Linear Algebra and Differential Equations), Boolean algebra (M0009M Discrete Mathematics), General computer skills and experience of rapport writing. Knowledge in English, equivalent to English 6.

## Selection

The selection is based on 1-165 credits.

## Course Aim

The students should be able to:

1. Understand of security threats, mechanisms, protocols and services in computers and computer networks.
2. To analyze and evaluate the security properties of network applications.
3. To design and implement applications that provide or use security services in computer networks.

## Contents

Introduction to security  
Introduction to cryptography  
Authentication, access control, security models  
Intrusion detection, firewalls  
Malware: virus/worm/trojans  
Web attacks  
Digital signatures  
Public-Key Infrastructure (PKI) and Trusted Third Party (TTP)  
Message authentication  
Network authentication (Kerberos)  
Email security  
VPN technology (IPSec)  
WWW security

## Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

The education consists of lectures, laboratory work and assignments. The laboratories are presented orally and may be provided with a deadline for submission. There are no elective course elements. Unapproved students must retake the unsuccessful examination moment next time the course is given.

## Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. Continuous examination with two written quizzes, assignment and laboratory work that gives a number of points. The grade in the course is based on how many points you have accumulated.

## Unauthorized aids during exams and assessments

If a student, by using unauthorized aids, tries to mislead during an exam or when a study performance is to be assessed, disciplinary measures may be taken. The term "unauthorized aids" refers to aids that the teacher has not previously specified as permissible aids and that may assist in solving the examination task. This means that all aids not specified as permissible are prohibited. The Swedish version has interpretative precedence in the event of a conflict.

## Course offered by

Department of Computer Science, Electrical and Space Engineering

## Modules

Code	Description	Grade scale	Cr	Status	From period	Title
0001	Laboratory work	U G#	2	Mandatory	A19	
0002	Two quizzes	G U 3 4 5	3.5	Mandatory	A19	
0003	Assignment report	G U 3 4 5	2	Mandatory	A19	

## Study guidance

Study guidance for the course is to be found in our learning platform Canvas before the course starts. Students applying for single subject courses get more information in the Welcome letter. You will find the learning platform via My LTU.
