The course gives the student fundamental knowledge of legislation as well as the interplay among the building construction market's actors.

Contents

The course introduces the student in the legal relationships between purchasers, contractors, suppliers, consultants, inspectors, and other actors in the construction industry.

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

Instruction consists of lectures, seminars and exercises.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. This is a pass/fail course. To obtain a grade of pass, students are required to satisfactorily complete an oral examination, assignments, written report and attend compulsory seminars.

Unauthorized aids during exams and assessments

If a student, by using unauthorized aids, tries to mislead during an exam or when a study performance is to be assessed, disciplinary measures may be taken. The term "unauthorized aids" refers to aids that the teacher has not previously specified as permissible aids and that may assist in solving the examination task. This means that all aids not specified as permissible are prohibited. The Swedish version has interpretative precedence in the event of a conflict.
