Environmental Law 7.5 credits J0005N

Miljö rätt

First cycle, J0005N

Education level	Grade scale	Subject	Subject group (SCB)
First cycle	U G VG *	Rättsvetenskap	Law and Legal Studies

Main field of study

Jurisprudence

Entry requirements

In order to meet the general entry requirements for first cycle studies you must have successfully completed upper secondary education and documented skills in English language

Selection

The selection is based on final school grades or Swedish Scholastic Aptitude Test.

Course Aim

After completing this course the student should be able to:

- explain the basics and structure of Swedish environmental legislation
- explain basic concepts and basic principles of environmental law
- identify, structure and solve basic legal issues in the field of environmental law
- explain the basics of international environmental law and EC environmental law.

Contents

The course begins with an introduction to jurisprudence from an environmental law perspective. Thereafter the Environmental Code and other relevant environmental legislation, including inter alia legal protection against pollution and other disturbances, the damage to biodiversity and other natural environmental values, the legal control of chemicals and waste management, use and management of land, natural resources and energy is examined. The course focuses on Swedish environmental law. It gives an overview of international environmental law and EC environmental law.

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

The course includes lectures and exercises in solving legal problems. The student should prepare each lecture and exercise by studying certain material and questions. At exercises the students will orally present their proposed solutions, and meet and discuss other students suggestions. Preparations should as far as possible be conducted in groups.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. The student shall indicate that he or she meets the objectives of the course in a written exam at the end of the course. This means that the student must demonstrate that he or she can explain the basics of Swedish environmental law, international environmental law and EC environmental law, explain basic concepts and principles in environmental law and propose solutions to basic legal issues in environmental law, in a structured and correct manner.

Unauthorized aids during exams and assessments

If a student, by using unauthorized aids, tries to mislead during an exam or when a study performance is to be assessed, disciplinary measures may be taken. The term “unauthorized aids” refers to aids that the teacher has not previously specified as permissible aids and that may assist in solving the examination task. This means that all aids not specified as permissible are prohibited. The Swedish version has interpretative precedence in the event of a conflict.

Remarks

Students must register for the courses themselves, or contact ETKS educational administration eduetks@ltu.se, not later than three days after the quarter commences. Failure to do so can result in the place being lost. This rule also applies to students with a guaranteed place.

Basic level

Overlap

The course J0005N is equal to IER015

Course offered by

Department of Social Sciences, Technology and Arts

Modules
