

SYLLABUS

Final Year Project, Structural Engineering 30 credits K7001B

Examensarbete, Konstruktionsteknik

Course syllabus admitted: Autumn 2011 Sp 1 - Spring 2013 Sp 4

**DECISION DATE
2011-08-18**

Final Year Project, Structural Engineering 30 credits K7001B

Examensarbete, Konstruktionsteknik

Second cycle, K7001B

Education level	Grade scale	Subject	Subject group (SCB)
Second cycle	U G#	Konstruktionsteknik	Building Technology

Entry requirements

The student should, with normal study effort, be able to obtain the degree within one year from the start of his/her thesis work. The examiner decides in each case which courses are necessary for the project to be undertaken. At least one advanced course within the subject should be taken prior to the thesis work.

Selection

The selection is based on 30-285 credits

Examiner

Mats Emborg

Course Aim

In the thesis work the student shall individually or with one fellow student study a given task and write a report on the results. The work should be a research project or a technical investigation. The student should demonstrate his/her ability to:

- Apply the knowledge and skills that have been acquired.
- Plan and structure a research investigation
- Work according to a time plan
- Write a research or investigation report
- Analyze and draw conclusions from the obtained results
- Design a presentation
- Give an oral presentation of the report

The student should understand:

- The need for cooperation in research
- The different parts of the research and development (R&D) process
- How to initiate and create an R&D project
- How to implement R&D project results

Contents

Course contents are decided in cooperation with student/students at the start of the course.

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

Determined in connection with the planning of the thesis

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. Oral and written presentation of own work Opposing on thesis work of fellow student Participation in two additional thesis work presentations. Examiner: To be appointed by head of division/contact.

Overlap

The course K7001B is equal to ABK550

Literature. Valid from Autumn 2009 Sp 1

Course offered by

Department of Civil, Environmental and Natural Resources Engineering

Items/credits

Number	Type	Credits	Grade
0001	Degree project commenced	0	U G#
0002	Written and oral presentation	30	U G#
