Special Assignment in Structural Engineering 7.5 credits K7010B

Projektkurs i konstruktionsteknik

Second cycle, K7010B

Education level	Grade scale	Subject	Subject group (SCB)
Second cycle	U G#	Byggproduktion	Building Technology

Entry requirements

K0013B Structural design and K7009B Concrete manufacturing and construction or corresponding

Selection

The selection is based on 30-285 credits

Examiner

Andrzej Cwirzen

Course Aim

The main objective of this course is to enable student to deepen knowledge in a chosen rather narrow area. The topic can be related to any problem connected with the structural engineering. In some cases there will be a possibility to continue with the chosen topic within work for master thesis.

Contents

Experimental work and/or theoretical modeling. Any type of building material including for example concrete, steel, timber and their combinations.

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

Individual work but in some cases group work is also possible.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided.

Final written report

Literature. Valid from Autumn 2016 Sp 1

Any applicable to the chosen topic

Course offered by

Department of Civil, Environmental and Natural Resources Engineering

Items/credits

No items/credits available

Study guidance

Study guidance for the course is to be found in our learning platform Canvas before the course starts. Students applying for single subject courses get more information in the Welcome letter. You will find the learning platform via My LTU.
