The Company and Environmental legislation 7.5 credits L0007N

Företaget och miljökraven

First cycle, L0007N

Education level	Grade scale	Subject	Subject group (SCB)
First cycle	U G#	Miljöledning	Industrial Engineering and Management

Entry requirements

In order to meet the general entry requirements for first cycle studies you must have successfully completed upper secondary education and documented skills in English language

Selection

The selection is based on final school grades or Swedish Scholastic Aptitude Test.

Course Aim

After completion of this course the student shall be able to give an account of how vital parts of Swedish environmental legislation is interpreted and applied in Swedish companies.

Contents

The most important constitution in Swedish environmental legislation is the Environmental Code. The Environmental Code contains a multitude of requirements regarding companies and their activities. The course highlights how the most important parts of the Environmental Code can be interpreted and how these parts can be applied within companies. The different elements of the course gives deeper knowledge within areas such as; environmental impact assessments (EIA), environmentally hazardous activities, contaminated areas and after-treatment, chemical compounds, waste and producer responsibility, environmental reporting and risk assessments. The course is appropriate for those who come into contact with environmental issues through their work in companies or those working with environmental supervision for the authorities. The course is also appropriate for students needing to supplement their education in the environmental field.

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

The course is held as an Internet based course at quarter speed without gatherings. Learning is achieved by self studies and tutoring through the Internet where examination is continuous.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. Webb based tests and assignments. Alternative examination might exist.

Unauthorized aids during exams and assessments

If a student, by using unauthorized aids, tries to mislead during an exam or when a study performance is to be assessed, disciplinary measures may be taken. The term "unauthorized aids" refers to aids that the teacher has not previously specified as permissible aids and that may assist in solving the examination task. This means that all aids not specified as permissible are prohibited. The Swedish version has interpretative precedence in the event of a conflict.

Remarks

Students must register for the courses themselves, or contact ETKS educational administration eduetks@ltu.se, not later than three days after the quarter commences. Failure to do so can result in the place being lost. This rule also applies to students with a guaranteed place.
