The selection is based on 1-165 credits.

## Examiner

Johanna Sundbaum

## Course Aim

The student should, after acquiring knowledge of psychiatric, geriatric and neurological diseases, be able to explain, reflect on and, in collaboration with medical expertise, plan, carry out and evaluate treatment of those diseases. In addition, students should be able to describe current legislation in the area

## Contents

- Mental disturbances in adults and the elderly
- Psychiatric treatment methods
- Current laws and regulations regulating psychiatric activities
- Geriatric diseases including drug treatment of the elderly
- Neurological diseases

## Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

To achieve the course objectives, the student should, independently and through group cooperation, with support from the literature, lectures and seminars, work according to the instructions stated in the study guide

## Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. The course is examined in the form of:

- Individual written examination in psychiatry
- Individual examination in geriatrics
- Seminar in geriatrics
- Seminar in psychiatry
- Seminar in neurology/rehabilitation

## Remarks

This is a first-cycle course. Study supervision is provided in the course room in Canvas. Passing this course constitutes a specific entry requirement for placement courses and the thesis.

## Overlap

The course M0006H is equal to HMV024

The course M0006H corresponds to the course HMV024

## Literature. Valid from Autumn 2018 Sp 1

Dehlin, O., Rundgren, Å . (senaste upplagan). Geriatrik Lund: Studentlitteratur

Allgulander .C, Klinisk psykiatri

Författningshandboken för personal inom hälso- och sjukvård (senaste upplagan) Liber utbildning.

Grefberg, N. (senaste upplagan). Medicinboken Stockholm: Liber
