- communication and communication methodology

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

Learning takes place through activities that promote interaction between students themselves and between teachers and students. In this course, for example, literature studies, group work, laboratory experiments/simulations, workshops and seminars are used to aid student learning. Lectures are given in the chosen knowledge areas. Participation in laboratory experiments/simulations, workshops and seminars is mandatory.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. The course is examined individually or in groups through written and/or oral examinations. To pass the course the learning objectives must be met, which means a pass in the course as well as active participation in the mandatory parts. Grades are set by the examiner.

Overlap

The course O0086H is equal to O0110H

Literature. Valid from Spring 2020 Sp 3
