Search and critical review of scientific literature in relevant databases for nursing is included, as well as collection, analysis and compilation of data. Practising being an opponent and respondent is also included in the course as well as applying knowledge of relevant research design and research ethics.

## Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

The course is carried out as an individual assignment with compulsory supervision. The supervisor is appointed by the department. Regular seminars that follow the work process are included in the course, attendance is compulsory at the seminars.

## Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. The degree project is examined in the form of a written report that is presented at a seminar with opponent and defence. Grading criteria for pass and pass with distinction are stated in the study guide.

## Unauthorized aids during exams and assessments

If a student, by using unauthorized aids, tries to mislead during an exam or when a study performance is to be assessed, disciplinary measures may be taken. The term "unauthorized aids" refers to aids that the teacher has not previously specified as permissible aids and that may assist in solving the examination task. This means that all aids not specified as permissible are prohibited. The Swedish version has interpretative precedence in the event of a conflict.

## Remarks

The course is given for second-cycle studies within specialist education with a specialisation in intensive care. Study supervision is provided in the course room in Canvas.
