# Nursing, Thesis 15 credits O7034H

## Omvårdnad, examensarbete inom psykiatrisk vård

### Second cycle, O7034H

Education level	Grade scale	Subject	Subject group (SCB)
Second cycle	U G VG *	Omvårdnad	Nursing Science

## Entry requirements

## Selection

The selection is based on 30-285 credits

## Course Aim

After successfully completing the course, the student is expected to have a thorough knowledge concerning conducting an scientific work within the field of nursing with a specialization in psychiatric care This means being able to independently (under academic supervision):

- plan, implement and document a scientific work in the field of nursing in psychiatric care
- formulate a scientific nursing issue
- systematically search scientific literature in electronic databases
- critically review and evaluate scientific studies
- apply ethical research principles and write an application concerning research ethics

## Contents

In the course, the student will plan, implement and document an scientific work. This includes searching for and critically examining scientific literature in relevant databases in the field of nursing, as well as collecting, analyzing and compiling data. The course also includes exercises and conducting opponent and respondent activities as well as applying knowledge of relevant research design and research ethics.

## Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

The course is conducted as an independent self-directed project with required academic supervision. Academic supervisors are appointed by the Department. Seminars at regular intervals that follow the work process are included in the course; attendance at the seminars is mandatory.

## Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. The degree project is assessed via a protocol and a written report which is presented at a seminar with an opponent and respondent activity.

## Unauthorized aids during exams and assessments

If a student, by using unauthorized aids, tries to mislead during an exam or when a study performance is to be assessed, disciplinary measures may be taken. The term “unauthorized aids” refers to aids that the teacher has not previously specified as permissible aids and that may assist in solving the examination task. This means that all aids not specified as permissible are prohibited. The Swedish version has interpretative precedence in the event of a conflict.

## Remarks

The course is offered as part of a second-cycle study program in specialist training to become a nurse in psychiatric care.
