Stefan Larsson

Course Aim

After completed course the students will have good skills in developing his/her own competence.

This is founded on that the student, by active participation in professional activities, is able to document his/her learning process from reflection over:

- the connection between the activities he/she is participating in and the education
- professionalism and ethics in the activities
- the relations between own actions, private theory and scientifically anchored theory

Contents

Experience based learning
Professionalism and ethics
Field studies
Analysis and orientation on the world around us

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

Supervision and report writing Supervising is done by both the course manager and by a representative of the enterprise connected to the course.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. 80% participation Active participation in seminars and supervision occasions Assessment of report.

Remarks
