The course furthermore requires the following courses to be passed: S0031H / S0087H, S0058H / S0085H, S0071H / S0080H, S0073H / S0081H and S0045H / S0082H or equivalent.

Selection

The selection is based on 1-165 credits.

Course Aim

On completion of the course, the student with a scientific foundation, based on current laws and regulations with an ethical approach, must be able to:

1. Identify, choose and motivate a problem area in physiotherapy
2. Show the ability to independently plan and carry out a deepening work within the chosen problem area
3. Evaluate and discuss the conditions for the development of physical therapy in the problem area
4. Critically analyze and evaluate practices and conditions in the problem area
5. Propose development of theory, practice, service or product within the problem area

Contents

Theoretical and activity-based studies of a chosen problem in physiotherapy

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

The studies are conducted independently. The student will immerse himself in a problem area in physiotherapy based on his / her own interest. The studies of the problem area should provide knowledge of independently planning and implementing a deepening work within the chosen problem area as well as evaluate and discuss the conditions for physical therapy development in the problem area.

The student prepares an individual study plan and is wiled from it. The studied the problem area, the theoretical background and the comparison with practice as well as proposals development of theory, practice, service or product within the problem area is presented at an examiner seminar

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. Objectives 1-2 are examined by written submission.

Grades 2-5 are examined according to the study plan and at a seminar.

Unauthorized aids during exams and assessments

If a student, by using unauthorized aids, tries to mislead during an exam or when a study performance is to be assessed, disciplinary measures may be taken. The term "unauthorized aids" refers to aids that the teacher has not previously specified as permissible aids and that may assist in solving the examination task. This means that all aids not specified as permissible are prohibited. The Swedish version has interpretative precedence in the event of a conflict.

Remarks

Study plans are available in Canvas.
