In order to meet the general entry requirements for first cycle studies you must have successfully completed upper secondary education and documented skills in English language and Approved B-level, 20p, in the the students main subject.

Selection

The selection is based on 1-165 credits.

Examiner

Åsa Unander-Scharin

Course Aim

To give an introduction to the most important scientific traditions, and how these are related to different research methods. To give an insight into the research process and knowledge of data sampling methods currently relevant for respective research area.

Contents

General science of science history and history of ideas
Current scientific theories
To read and write scientific texts
Quantitative and qualitative methods
Literature retrieval

Realization

Each course occasion's language and form is stated and appear on the course page on Luleå University of Technology's website.

Lectures, seminars and group work. The teaching intends to give support and structure for the student's own learning of the course content, and to give opportunities for discussion and in different ways treat the learning matter.

Examination

If there is a decision on special educational support, in accordance with the Guideline Student's rights and obligations at Luleå University of Technology, an adapted or alternative form of examination can be provided. Oral and written assignments, one of them at least treated at a seminar. Attendance at lessons, and approved written assignments is demanded for the grade \"Pass\". For the grade \"Pass with distinction\" the text treated at the seminar must be of a very high quality.

Overlap

The course X0001G is equal to MUP180, X0005G

Literature. Valid from Autumn 2007 Sp 1

Thurén, Torsten (2000): Vetenskapsteori för nybörjare. Stockholm. Liber
